### PRAYER FOR UNDERSTANDING

May I come to Understand, that blessings are everywhere, that my attitude will effect outcomes, that challenges are often gifts in disguise.

May I come to Trust that most things can get better, with time, that my instincts & gut feelings have value, that a positive attitude makes things go smoother.

May I come to See that I have many skills & talents I can use, that I am a positive influence on many people, that there are those around me who wish me well.

May I come to Value that today is a blessing to be enjoyed, that each person is unique & important, that each moment of my life has meaning.

RE-DEVELOPING OUR OVAL PLAYGROUND—BUSY BEE: Keep an eye on this space as we will soon be advertising the date for the keenly anticipated busy bee, before winter sets in. We have had an amazing response from our families with 31 slips returned and many of them stating that both parents will be in attendance. I will be sorting out the materials needed for the different play spaces soon and the logistics of sourcing and obtaining the necessary materials from suppliers, free or at a reasonable price. I will be sending out requests to our community, in the next few days, once the list of materials has been collated. If you are able to help out please send your name through to the front office as soon as possible. I thank you once again for your generosity of time and talents.

Wishing you God's blessings.

### **Dear Parents**

In 1963 the singing group called, "Peter, Paul be, a million dollars or the hand of my and Mary" had a top-hit written for them by daughter?' 'All I want,' the man spluttered Bob Dylan; the last three lines of the first verse breathlessly, 'is the name of the so-and-so who were:

Here's a little story about someone who got a "rude" awakening: "There was once a wealthy Peace and Best wishes businessman who invited a group of guests around to his house for a party. As they were standing around the swimming pool, he points out to them that there is a shark swimming in it. 'I'll give a million dollars or the hand of my beautiful daughter in marriage, to the man who dares to swim one length of that pool.' Immediately, there is a splash and he turns around to see a man in his pool, swimming with all his might towards the far end. The swimmer makes it and scrambles out just before the shark gets to him.

The rushes businessman around to congratulate him. 'Well, my friend, which will it pushed me in!"" Author unknown.

## **CONSTABLE CARE INCURSION**

On Wednesday 31 May we will have 'Constable Care' coming to the school to perform two interactive drama pieces that will reinforce the key messages of Protective behaviours and online safety.

The Year 1 - 3 students will attend 'Fun Scary'.

### Key messages about this performance:

- There is a difference between keeping 'safe' and 'unsafe' secrets.
- Our bodies give us warning signs when we are feeling unsafe.
- Telling a trusted adult if you ever feel the 'bad' sort of scared or you don't feel safe.
- Telling an adult again if they don't listen to you the first time.
- Sometimes you might need to move to the next trusted adult on your 'trusted hand network'.

The Year 4 - 6 students will be attending 'Screen Name'

### Key messages of this performance:

- Not everyone we meet online is honest about their true identity.
- There are safe actions we can take to protect ourselves online.
- Always tell someone you trust (preferably an adult) if you are concerned about something you experienced online that made you feel unsafe.
- Ensure your personal information is protected online.
- There are real risks involved in meeting an online contact face to face, as you can never be sure they are who they say they are.

Hello from the OSHC team,

Are you familiar with any of the following stories? James and the Giant Peach The Enormous Turnip The Giant Jam Sandwich

Well...... last week we were given a GIANT, ENORMOUS, HUMUNGOUS watermelon. The watermelon was a gift from Mrs. Millar who grew the watermelon in her garden. The OSHC children are a very, very curious group and wanted to find out how much such a huge watermelon weighed.

So...... the children and even parents were given the opportunity to 'guess' the weight of the watermelon. Guesses ranged from .7kg – 100kg. To keep this strictly scientific the children made their guesses and gathered around the scales and much to the delight of James B and Yoshabel their guesses of 10.5kg came closest to the actual weight of 10.2kg. Thank you Mrs. Millar for the GI-ANT watermelon that we have eaten and enjoyed.

### **Dear Parents**

Please see the information below about an upcoming Parent/Child workshop being run by URSTRONG on 20 June. There is both a Junior (Year 1 to 3) program and Years 3 to 6 being run on the same evening.

I would especially encourage our Year 4 parents to attend, with their child, as this greatly supports the work we are doing each week in the classroom with our Friendology 101 program being run all this term.

Please think about making the extra effort to attend as I am sure you will find it to be of great help and benefit and worth the effort.

### What is a healthy zero waste lunch?

A healthy zero waste lunch does not contain throwaway packaging or produce food waste. It also reduces litter because there is less packaging. The typical healthy zero waste lunch is packed in a lunch box or bag. The food is put in reusable containers rather than wrapped in disposable packaging, a drink is in a refillable bottle and all containers are resealable so that leftover food and drink can be saved for later.

### Why should we have a healthy zero waste lunch?

By bringing less waste into schools we can minimise litter, reduce waste going to landfill, save money and develop healthy eating habits. Producing excessive amounts of waste is a major problem in Australia, with Australia being the second highest producer of waste per person when compared to other western countries. Australians produce 41 million tonnes of waste each year. This amount of waste would fill a line of garbage trucks from Perth to London. Recent statistics also reveal that WA produces significantly more waste than the rest of Australia and diverts the smallest amount of waste from landfill (Hyder Consulting, 2008). These statistics highlight the need for an immediate reduction in our waste production.
